

FORWARD THINKING POWER GENERATION

ABOUT US

Loftin equipment Co. is the authorized Southwest U.S. regional distributor of Guascor Energy S Series, H Series, and E Series green technology gaseous engines from 200 kW to 2 MW single sets with paralleling capabilities to meet much larger requirements.

S Series

Designed for fuel flexible
power generation

SL-Lean Burn from 240 to 1150 kW

SR - Rich Burn from 240 to 870 kW

SM-Lean Burn

LPG: from 336 to 1000 kW

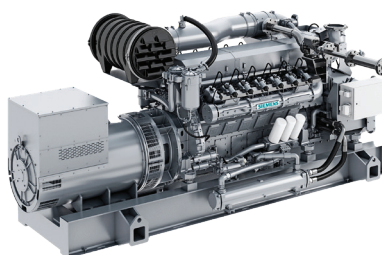

H Series

Designed for high performance
power generation

HM - Lean Burn, Miller Cycle from
500 to 1300 kW

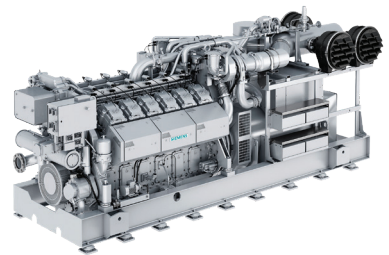

E Series

Designed as best-in-class
alternative

EM - Lean Burn, Miller Cycle
Power Output: 2007 kW

APPLICATIONS

Loftin Equipment Co. is a member of the American Biogas Council. We offer green technology solutions for Power Generation, Waste to Energy, and Cogeneration/CHP. Fuel options include natural gas, sewage, landfill, and biogas. Fuel blending systems are available for biogas gensets.

- Utilities
- Manufacturing
- Landfill
- Agriculture
- District Heating Industry
- Commercial Buildings
- Sewage
- Peak Shaving

ENGINEERING

When you partner with Loftin Equipment Co. and Guascor Energy, you are partnering with two world class organizations that are dedicated to serving the power generation needs of their customers from inception, to installation, and throughout the life of your equipment.

Our application engineers will look at the total power required, determine the equipment to apply and work with you through the design phase, engineering, installation, and start up.

PARTS & SERVICE

Loftin's service department and quality of service is second to none. Once the installation of your generator system is complete, our factory trained inside sales and service staff will ensure you receive an outstanding customer experience and high quality support throughout the useful life of your system.

As the authorized Southwest U.S regional distributor, we stock a complete lineup of Guascor Energy parts and our parts team is trained to ensure parts are available in stock for quick turnaround when required.
