KEEP EQUIPMENT PRODUCTIVE BY FUELING ONSITE

Lower expenses and raise productivity with Stellar's Multi-Tank Fuel Trailer. With seven 110-gallon fuel tanks, you can easily handle multiple refueling needs — saving you the expense of a dedicated fuel truck. There's also a 110-gallon stainless-steel diesel exhaust fluid (DEF) tank, helping you meet environmental requirements.

NO HAZMAT LICENSE ENDORSEMENT NEEDED

Multi-Tank Fuel Trailers are specially engineered with the fuel tanks mounted separately, with individual shutoff valves, to keep them isolated from each other, so you don't need a specially qualified operator to take fuel directly to your equipment.

BUILT-IN VERSATILITY

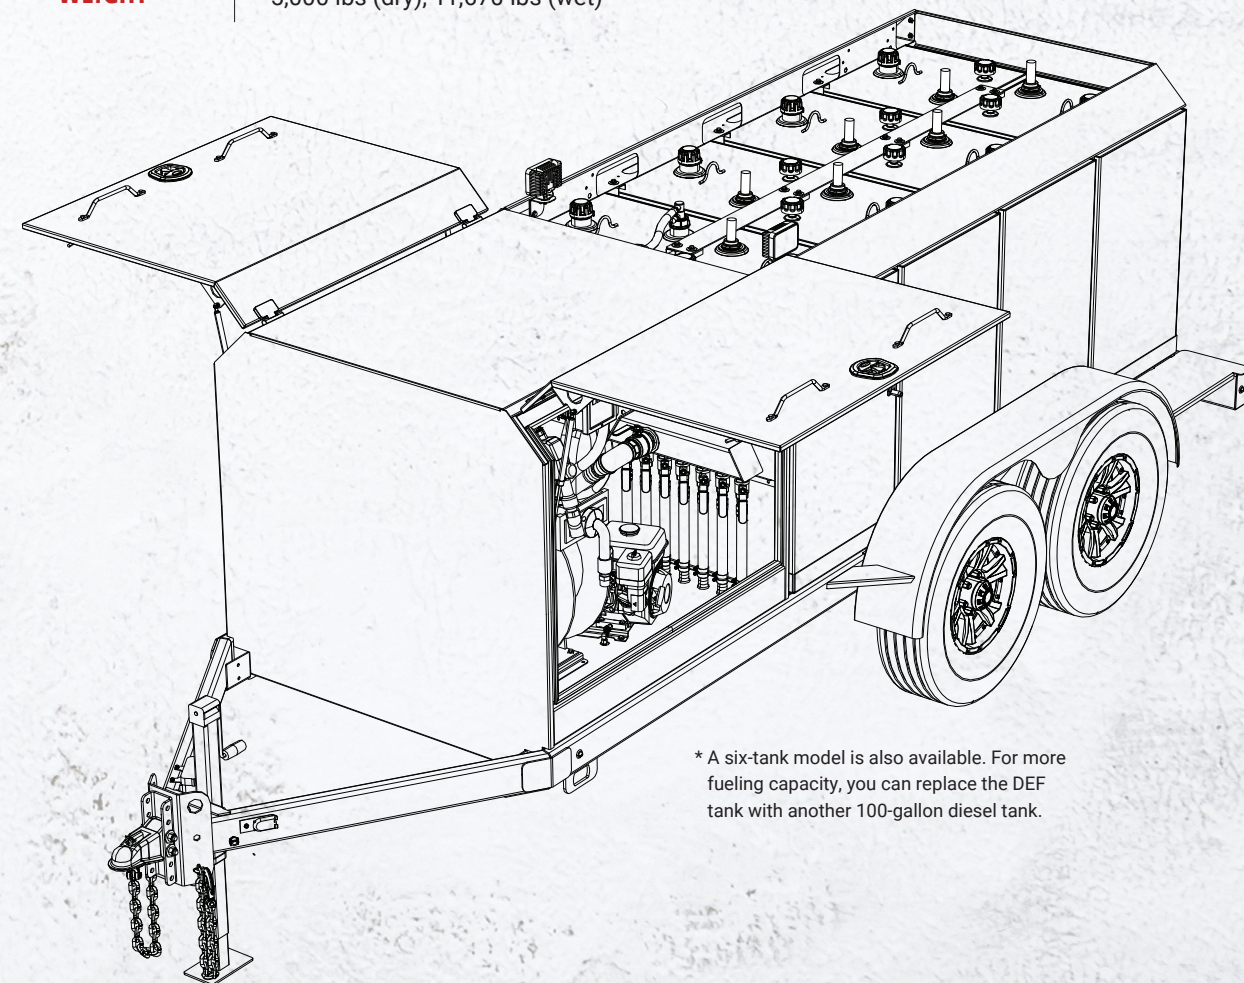

A 54" cabinet with two gull-wing doors gives you space to carry tools and equipment. You can also customize the space with different fuel pump systems, hose reel lengths, an air compressor, additional work lights and accessories like a toolbox system or power supply.

BUILT TO LAST

Because your trailer is from Stellar, you can count on high-quality components, stainless-steel features, and a powder-coated finish with rock guard spray for extra protection and long-term reliability. Each trailer is fully DOT-compliant, and the spring-loaded bolts and the tub baffle system reduce vibration for a smoother ride. Your trailer is also backed by a 3-year warranty on Stellar manufactured structural components, parts, repair labor and paint coverage.

SPECIFICATIONS

TANKS	Seven 110-gallon diesel fuel tanks* and one 110-gallon stainless-steel DEF tank
CABINET	54" with two gull-wing doors
TUBE FRAME	5" x 2"
AXLES	Two 6,000-lb spring axles with electric brakes
WHEELS	Aluminum
LIGHTING	DOT-compliant
FUEL PUMP	Electric-start 50 gpm
METER	Mechanical
DIESEL REEL	1" x 50' with high-flow auto nozzle and swivel
DEF PUMP	12V with 3-way valve
DEF REEL	1/2" x 50' with nozzle
WORK LIGHT	4" x 6" LED
FINISH	Primer powder coat
DIMENSIONS	17' 9" x 79.75"
WEIGHT	5,000 lbs (dry), 11,670 lbs (wet)

* A six-tank model is also available. For more fueling capacity, you can replace the DEF tank with another 100-gallon diesel tank.
