ABOUT US

At Loftin Equipment Co. we believe in power as a certainty in an uncertain world. We provide engine and generator solutions for life's power needs. At Loftin Equipment you'll find passionate people who deliver uncompromising customer focus, dedication to excellence, premium quality products, and continued reinvestment for what's next.

Established in 1976, Loftin Equipment is the authorized distributor of Kohler generators, paralleling switchgear, controls, Kohler engines from 4 - 84 HP and parts, Scania engines and parts, and Kubota generators, engines and parts.

We pride ourselves in supporting your project from inception to installation and then throughout the life of your equipment. Loftin Equipment professionals are well versed in Tier IV regulations and requirements and we have a wide variety to get you and your application ready for the final hurdle.

Our service and parts department is one of the largest factory trained, generator-specific service organizations. We offer planned maintenance as well as emergency repairs 24 hours a day, 365 days a year servicing all makes and models of power generation equipment.

To best serve our customers and our team, we created Loftin University, a first class training center in our Houston location that offers a variety of engine, generator, controls, and fundamentals for the power industry.

PRODUCTS

As a leading manufacturer of integrated generator power systems, Kohler can provide power systems for any size application; from residential units to multi-genset industrial installations. Kohler offers gas models 8.5 kW to 400 kW and diesel-fueled models from 10 kW to 3250 kW, as well as electronic controls, automatic transfer switches, and paralleling switchgear.

Producing 5, 6, and 8 cylinder engines from 275 to 770 HP, Scania is one of the world's leading manufacturers of heavy duty industrial engines. As a leader in the engine market, Scania produces an engine that you can depend on in the toughest conditions. Scania's Tier IVi and Tier IV Final engines offer cleaner internal burning and greatly reduce the need for expensive exhaust after-treatment.

As the world demands stricter environmental protection, the Engine Product Environmental Management Section (EPEMS) at Kubota Corporation was established exclusively to work on environmental issues. By gathering information concerning emission regulations from all over the world and performing thorough computer controlled automatic emission measuring tests on all new engines, the engines produced by Kubota, from 6 to 114 HP, possess the world's highest level of adaptability to pass future emission regulations. Kubota's Tier IVi and Tier IV Final engines offer better fuel injection and internal combustion design resulting in a smaller footprint and lower applied costs.

TRAINING

Loftin University is a 1st class learning center where technicians and dealers of all skill levels can learn about the products we proudly represent. We teach in both a classroom and a practical lab, with a broad cross section of equipment that fully encompasses the technology seen in the field and offered by our partners.

SERVICE & PARTS

Loftin Equipment Co. offers 24 hour service and a fleet of service trucks stocked with parts so that your onsite power system and equipment stays up and running. To ensure your equipment is ready to operate when the power goes out, Loftin Equipment Co. offers a range of planned maintenance programs tailored to our customer's needs.

RENTAL

Loftin Equipment Co. is your full-service supplier of emergency backup and prime power for a variety of critical applications. Wherever and whenever you need it, we're on hand with generators and redundant power systems. Loftin Equipment Co. carries all the supportive equipment to ensure your rental application runs smoothly.

POWER AS A CERTAINTY IN AN UNCERTAIN WORLD.

Dependence on technology requires an uninterruptible power source, whether you are a small business, hospital, retail outlet, contractor, cellular communications site, building/facility manager, homeowner, or OEM, Loftin Equipment Co. is a proven provider.
